

IOSSO MOLD & MILDEW STAIN REMOVER
FACT SHEET

*May be used on all fabrics with the exception of silk and wool. Great on solution dyed acrylics, vinyls, laminated fabrics, plastics, carpeting, wood, fiberglass, painted surfaces, virtually all interior and exterior boat surfaces.

*Some end-use products to clean are awnings, tents, umbrellas, patio furniture, cushions, inflatables, boat seats, boat covers, carpeting, clothing, sails, tile, even concrete and more.

*Removes mold, mildew, algae stain, tough dirt, oil, most food and drink stains, blood stains, bird and spider droppings, tannin (leaf) stains.

*Does not contain chlorine or bleach. It will not degrade fabrics or fibers and will not bleach out colors. It is gentle to the skin and has no harmful vapors. It is biodegradable.

*Mix only what is intended to be used. Do not store mixed solution. Mixed solution becomes less effective after 12 hours. Store powder in a cool dry place.

*Will not harm plants, bushes, grass, trees or pets.

*Mix recommended amount of powder with water. Warmer water will allow the best results. Stir thoroughly until the blue color disappears. Sponge, brush or spray mildew cleaner solution onto the surface. If surface is hot, cool with water before application. Let stand 10 – 15 minutes or longer keeping area wet with solution. Extra soiled areas may require a longer or overnight soak. If needed, brush lightly, then rinse with water.

*For large areas-solution may be mixed and applied with an applicator sprayer.

*Available in 12 ounce jars – makes 3 gallons.
65 ounce pails – makes 16 gallons.
36 pound pails – makes 144 gallons.

Samples and brochures are available.
